

World Report Award 2012 Italian Photojournalism Award

The **Festival of Ethical Photography** of Lodi is pleased to present the second edition of the **World.Report Award – Italian Photojournalism Award**.

The Festival of Ethical Photography has come to the attention of the public thanks to the quality level and the international dimension of the guests presented in the previous editions.

The **Festival of Ethical Photography of Lodi**, that will take place in Lodi from 19th to 22nd of April 2012 was created and is managed on voluntary basis. Its purpose is to bring the general public close to ethically significant contents using photography as communication and knowledge means and to offer different nuances of the fine relationship between ethics, communication and photography.

World.Report Award's goal is to provide support to photographers who, despite considerable personal and financial sacrifices, keep on testifying with their images of all the events happening in the world.

The World.Report Award - Italian Photojournalism Award aims at a new form of social commitment through photography. The award is open to both professional and amateur photographers from all over the world whose work focuses on social and documentary reportages.

The award will give attention to works focusing on people and their social and cultural stories; public or private, minor or crucial, big human tragedies or petty daily stories, changes and immutability.

The story the photographer will be able to tell through compelling images that entail the definition of 'social reportage' will be the core of the jury's key to interpretation.

The cash award of **€ 3,000** will be granted to the photographers whose work contributes to bringing people's attention to significant social and human events and who are not usually adequately rewarded.

The winning reportage will be exhibited during the Festival of Ethical Photography as an integral part of the 2012 edition.
